

True Mobile WiFi Troubleshooting on iOS and Android

The Wi-Spy Air and Air Viewer mobile app is the fast, portable and accurate way to validate and troubleshoot WiFi environments. Level up your iOS or Android device with Wi-Spy Air's onboard WiFi chipset and spectrum analyzer, transforming it into a professional-grade wireless tester.

Air Viewer App: Your WLAN Command Center

When you're out on a job validating an installation, carrying around a laptop stinks, but until now it was necessary to get the network data you needed. Air Viewer frees you from the laptop and puts Layer 1 and Layer 2 information in the palm of your hand. It's all the network data you'd expect from a beefy WiFi scanner, plus insights from actual connected client devices so you can confidently verify that the network is good to go.

- See high-level network data at a glance in both graph and card format, and drill down to get detailed network information.
- Fine-tune your channel planning by spotting Layer 1 interference and utilization issues.
- Spot connectivity problems like band-steering and roaming issues from the client perspective with deep-dive client details.

Features Comparison

Wi-Spy Air Hardware: Portable and Powerful RF + WiFi Data

With the Wi-Spy Air and its onboard wireless chipset, there's no need to spend thousands of dollars on dedicated handheld WLAN testing hardware. Just BYOD and let your iOS or Android device realize its full potential as a professional-grade WiFi troubleshooting tool.

- Scans RF on 2.4 GHz and 5 GHz bands
- Scans WiFi frames on 2.4 GHz and 5 GHz bands
- Works with Air Viewer mobile app
- Uses on-board battery power (rechargeable AAA) so it won't zap your phone's battery

Spectrum Analyzer Scan

Frequency Range: 2.4 to 2.5 GHz, 5.15 to 5.85 GHz
Frequency Resolution: 2.4 GHz: 333 KHz / 5 GHz: 1.665 MHz
Amplitude Range: -95 to 0 dBm
Amplitude Resolution: 0.5 dBm
Sweep Time: 2.4 GHz: 250 ms / 5 GHz (entire band): 1250 ms

SSID Scan

Frequency Range: 2.4 to 2.5 GHz, 5.15 to 5.85 GHz
Frequency Resolution: -100 to +10 dBm
Amplitude Range: -95 to 0 dBm
Amplitude Resolution: 1 dBm

Dimensions

Length: 80 mm (including RP-SMA connector)
Width: 57 mm
Height: -22.5 mm

Antenna

Antenna Port: SMB Connector
Antenna: RP-SMA

Peripherals and Power

Power:
AAA batteries (4 rechargeable pre-charged batteries included)

Ports:
USB-Mini connectivity port (OTG required)
USB-Micro charging port

Included cables:
USB-Mini to Lightning (OTG)
USB-Mini to USB-Micro (OTG)
USB-Mini to USB-C (OTG)
USB-Mini to USB-A (OTG)
USB-A to USB-Micro Charging Cable

Air Viewer System Requirements

Android: v7 and above
iOS: v12 and above
